Feedback Question 1: What 3 things did you like best about the game?

Graphics ~~were~~ and animations are great

Simple controls & gameplay, easy to pick up

Multiple bullets make for some hype moments
(i.e. double kill) ~ capitalise on these

Feedback Question 2: What 3 things did you like least about the game?

Player/enemies were a bit too small
and HUD buttons

No sounds / progression (except for score)

Can play keepaway (avoiding enemies or shooting only)
quite easily

Make at least one specific suggestions for improvement

The big planet/sun object should be in front of the stars

Implement high score
