Feedback Question 1: What 3 things did you like best about the game?

- Animation is on "seek" as they would say
- good UI in game
- gameplay is solid and provides a smooth experience.

Feedback Question 2: What 3 things did you like least about the game?

- If an enemy goes passed, its gone (so maybe keeping it on following players?)
- Too fast paced (not enough AI for it)
- Some bugs with screen like the planet.

Make at least one specific suggestions for improvement

- More AI spawns
- pickup possibilities
- boss?
